

Brookfield Power comprises the power generating and marketing operations of Brookfield Asset Management Inc. Brookfield Power has developed and successfully operated hydroelectric power facilities for almost 100 years.

Brookfield

Brookfield Power's portfolio comprises over 3,800 megawatts of capacity and includes over 140 hydroelectric power generating stations and 1 pumped storage facility located on over 52 river systems, 1 wind farm, and 2 thermal plants, principally in the northeastern North America and South America. (See www.brookfieldpower.com for more details). Brookfield Asset Management Inc., focused on property, power and infrastructure assets, has approximately US\$70 billion of assets under management and is co-listed on the New York and Toronto Stock Exchanges under the symbol BAM. (See www.brookfield.com for more details).

LEGAL COUNSEL

Work Location – National Capital Region (Gatineau/Ottawa)

Reference No: 09-BEMI-16

The successful candidate will provide support for Brookfield Energy Marketing Inc.'s energy trading and marketing activities. Primary responsibilities include drafting and negotiating (i) standard trading documentation, including EEI, ISDA, NAESBE and GasEDI master trading agreements and related annexes and confirmations for the trading of physical electricity, gas and renewable energy credits and related financial derivatives in Canada and the United States, (ii) transmission and transportation agreements, (iii) guarantees, (iv) letters of credit and (v) confidentiality agreements. Other responsibilities will include (a) assisting with regulatory compliance, including researching licensing, registration and reporting requirements in Canada and the United States and preparing necessary applications, renewals and reports with various energy regulators in the United States and Canada, and (b) assisting trading and development teams with review and preparation of bids and submissions in response to requests for proposals. The successful candidate may also be called upon to provide contractual interpretations, other legal advice and support to commercial teams, including the trading, risk, credit, regulatory and settlement groups.

Candidate profile

- LLB or JD;
- Admitted to practice law in Canada or the United States.
- Between 2-5 years of broad commercial law experience gained at a top tier firm or legal department with a demonstrated ability to draft, assess and assist in the negotiation of complex contracts;
- Experience in commodities and derivatives trading and/or an understanding of the laws, regulations and rules applicable to energy markets would be an asset.
- Strong legal and analytical skills combined with attention to details and thoroughness;
- Effective communication and interpersonal skills;
- Excellent business judgment;
- Demonstrated ability to work independently in a fast-paced environment and a highly regulated industry;
- English essential, with French an asset.
