

Challenge. Technology. Opportunity.

Our Company is built on employee mutual commitment and respect, enthusiasm and progress.

Teledyne DALSA specializes in the manufacture, design, research and development of high performance CCD image sensors and modular expandable cameras. Teledyne DALSA's products are used worldwide in machine vision, document scanning, image capture, surveillance, process monitoring, manufacturing inspection, medical imaging, and multi media. As part of our continuing growth in this high technology market, we are recruiting for the following opening:

Director, Contracts

The primary purpose of this role is to draft, review and/or advise on all contracts entered into by the Company (or changes to standard contracts) in the course of conducting our business, with clients, suppliers, contractors, vendors and partners.

The Director, Contracts will balance business needs and mitigate risks in a proactive fashion, drawing upon their in-depth knowledge of domestic and international contract law, to help the business achieve its goals and ensure full compliance with all applicable regulatory bodies.

Experience with custom engineering development contracts as well as an appreciation for the impact of contract language relating to local tax regulations, liability, consideration and intellectual property rights will be considered highly relevant for this role.

Candidates should have at least 10 years relevant experience. Law Doctorate not a requirement but will be considered an asset.

Please quote file number 590 and include references with your resume.

Teledyne DALSA offers competitive salary. Teledyne DALSA is an Equal Opportunity Employer. Qualified applicants should apply to this position through our website at www.teledynedalsa.com. No phone calls or agencies please. Only those applicants invited for an interview will be contacted. We thank everyone who applies.
