Join us to explore the various stages in the life cycle of a corporate entity from formation to dissolution and revival. Our expert faculty will provide a valuable roadmap for managing a corporation's entire lifecycle effectively, including:

- **Forming the Entity:** Choosing the right jurisdiction and understanding incorporations, including different share types and share classes.
- **Amendments and Reorganizations:** Managing corporate changes effectively to adapt to business needs.
- **Amalgamation and Continuance:** Exploring processes for merging entities or continuing under different jurisdictions.
- **Dissolutions and Revivals:** Addressing corporate closures and bringing entities back to life through articles of revival.

Gain practical insights into navigating corporate changes efficiently and competently. Register now!
