The Canadian Association of Pension Supervisory Authorities (CAPSA) published consultation drafts of pension plan guidelines that address cyber risks on June 9, 2022. Pension plan administrators and their third-party service providers are increasingly relying on technology, and it is crucial to know the steps to take to monitor and manage cyber risk and to protect plan beneficiaries and plan assets against the risk of cyber-attacks.

Join our exceptional faculty for a discussion on the rise of cyber incidents and an overview of the legal considerations and practical strategies to build cyber resilience and mitigate cyber-attacks. The knowledge and skills from this program are essential for all pensions and benefits lawyers.

Program Chairs: Patrick Denroche, Torys LLP
Paul Migicovsky, OMERS

Speakers: Alyson Frankie, Stikeman Elliott LLP
Molly Reynolds, Torys LLP
Barbara Walancik, LifeWorks
Jonathan Weekes, HUB International
